

# LARS CE Compliance

This form explains how CE Compliance works in LARS. **Before you click on RENEW LICENSE, you need to enter your hours under CE COMPLIANCE.** When you add your hours to CE Compliance, it will turn green once you have satisfied the required CE hours (If you are short hours, you can still renew, but you will be put on probation until you submit the required hours). There is a Licensing Period drop down box. You can always check between licensure periods to make sure you are compliant. When you renew you license for whatever current year, that year should show compliance if you have submitted all of your hours. After you enter your hours and go through the steps to renew, LARS puts you into a new renewal period; therefore, the new Licensing Period will show Noncompliance. Don't worry. That is how LARS works.

Mississippi Board of Examiners for Social Workers and Marriage & Family Therapists
